JOURNAL OF IMMUNOLOGICAL METHODS

Special Issue

CONTENTS

Vol. 174, nos. 1–2, 1994

Preface 3

Culture of mononuclear phagocytes

Markers of mouse macrophage development detected by monoclonal antibodies
P.J.M. Leenen, M.F.T.R. De Bruijn, J.S.A. Voerman, P.A. Campbell and W. Van Ewijk (Netherlands, USA) 5

Monoclonal antibodies against rat macrophages
C.D. Dijkstra, E.A. Döpp, T.K. Van den Berg and J.G.M.C. Damoiseaux (Netherlands) 21

Establishment of mononuclear phagocyte cell lines
W.S. Walker (USA) 25

Establishment and characterization of murine macrophage-like cell lines following transformation with simian virus 40 DNA deleted at the origin of replication
U.C.K. Kreuzburg-Duffy and C. MacDonald (UK) 33

Methods for purifying mononuclear phagocytes

Separation of murine peritoneal macrophages using percoll density gradients
B. Vray and N. Plasman (Belgium) 53

Isolation of rat and human Kupffer cells by a modified enzymatic assay
G. Heuff, S. Meyer and R.H.J. Beelen (Netherlands) 61

A method for isolating human lung macrophages and observations of fluorescent phagocytes from the lungs of habitual cigarette smokers
R.J. Streck, H.M. Jezewski, M.I. Rodriguez, E.L. Hurley, G.A. Rich, K.M. Braun and J.L. Pauly (USA) 67

Liposome mediated depletion of macrophages: mechanism of action, preparation of liposomes and applications
N. Van Rooijen and A. Sanders (Netherlands) 83

Identification of mononuclear phagocytes

Use of surface molecules and receptors for studying macrophages and mononuclear phagocytes
I. Fraser, A. Doyle, D. Hughes and S. Gordon (UK) 95

Assay for scavenger receptors on human monocyte-derived macrophages
A. Gugliucci Creriche and A.J.C. Stahl (France) 103

Phenotypic investigation of mononuclear phagocytes by flow cytometry
F. Steinbach and B. Thiele (Germany) 109

Immunophenotyping of murine peritoneal macrophages and lymphocytes by flow cytometry
N. Plasman and B. Vray (Belgium) 123

Functions

Immunohistochemical methods for studying mononuclear phagocytes in tissue sections
F. Plenat, Y. Martinet, N. Martinet and J.-M. Vignaud (France) 133

A new method for studying the binding and ingestion of zymosan particles by macrophages
Y. Lombard, J. Giaimis, M. Makaya-Kumba, P. Fonteneau and P. Poindron (France) 155

Methods for studying antiviral functions of macrophages and mononuclear phagocytes
F. Keller (France) 167
Interaction of alveolar macrophages and respiratory syncytial virus
G. Franke, J. Freihorst, C. Steinmüller, W. Verhagen, S. Hockertz and M.-L. Lohmann-Matthes (Germany) 173
Antimicrobial functions of mononuclear phagocytes
J.A.M. Langermans, W.L.W. Hazenbos and R. Van Furth (Netherlands) 185
Quantification of bacterial phagocytosis by flow cytometry and spectrofluorimetry
N. Plasman and B. Vray (Belgium) 195
Macrophage mediated tumor cell destruction measured by an alkaline phosphatase assay
M. Modolell and P.G. Munder (Germany) 203
Blood monocyte chemotaxis
Y. Martinet, N. Martinet, J.-M. Vignaud and F. Plenat (France) 209
Methods for studying immuno-effector functions and antigen presenting activity of human macrophages
M.G.H. Betjes, C.E.G. Havenith, A.A. Van de Loosdrecht and R.H.J. Beelen (Netherlands) 215

Products of mononuclear phagocytes
Arachidonic acid and eicosanoid release
P. Dieter (Germany) 223
Determination of arginase activity in macrophages: a micromethod
I.M. Corraliza, M.L. Campo, G. Soler and M. Modolell (Spain, Germany) 231
Leukocyte recruitment by monocyte chemotactic proteins (MCPs) secreted by human phagocytes
A. Wuyts, P. Proost, W. Put, J.-P. Lenaerts, L. Paemen and J. Van Damme (Belgium) 237
A new monoclonal antibody (5D3-F7) which recognizes human monocyte-chemotactic protein-1 but not related chemokines. Development of a sandwich ELISA and in situ detection of producing cells
G. Peri, C. Milanese, C. Matteucci, L. Ruco, D. Zhou, S. Sozzani, I. Coletta and A. Mantovani (Italy) 249
Chemiluminescence and nitrite determinations by the MALU macrophage cell line
F. Boudard, N. Vallot, C. Cabaner and M. Bastide (France) 259

Labelling of mononuclear phagocytes
Retroviral immortalization of phagocytic and dendritic cell clones as a tool to investigate functional heterogeneity
M.B. Lutz, F. Granucci, C. Winzler, G. Marconi, P. Paglia, M. Foti, C.U. Aßmann, L. Cairns, M. Rescigno and P. Ricciardi-Castagnoli (Italy) 269
In situ hybridization for localization of mRNAs in mononuclear phagocytes in cell culture and tissue sections
J.M. Vignaud, N. Martinet, Y. Martinet and F. Plenat (France) 281

Use of monocytes / macrophages in adoptive immunotherapy
Large scale isolation of human blood monocytes by continuous flow centrifugation leukapheresis and counterflow centrifugation elutriation for adoptive cellular immunotherapy in cancer patients
A. Faradji, A. Bohbot, M. Schmitt-Goguel, J.C. Siffert, S. Dumont, M.L. Wiesel, Y. Piemont, A. Eischen, J.P. Bergerat, J. Bartholeyns, P. Poindron, J.P. Witz and F. Oberling (France) 297
A tetrazolium-based colorimetric MTT assay to quantitate human monocyte mediated cytotoxicity against leukemic cells from cell lines and patients with acute myeloid leukemia
A.A. Van de Loosdrecht, R.H.J. Beelen, G.J. Ossenkoppele, M.G. Broekhoven and M.M.A.C. Langenhuijsen (Netherlands) 311

Notes to authors 321
